Polaris Delivers Client Onboarding Feature Set and Other Revenue Generating Enhancements of its Payroll and HR Processing Platform with its Latest Release

The Latest Release of the Cloud based Payroll and HR Platform brings Client Onboarding with Comprehensive Workflows, API Functionality, Tax Notice Services Management Solutions and More.

(Apex, NC – May 31, 2019) – Polaris Payroll™, a provider of SaaS On-Demand Payroll Processing and Human Resource solutions to Payroll Service Bureaus (PSB) of all sizes, continues to leverage its Software as a Service ("SaaS") On-Demand technology platform by announcing the latest releases of application enhancements to its Payroll Processing platform during the 1st and 2nd quarters of 2019.

Enhancements in these releases include:

- **Client Onboarding**: Added the Client Onboarding Feature set and workflows that streamline the onboarding process for new clients/employers. New clients are sent a welcome email with login credentials and instructions for the initial onboarding process. It's simple and driven by three simple screens of information to complete including Client demographic, Federal and State(s) Taxes and Client Preferences. This workflow streamlines the entire onboarding process and reduces the service bureau's implementation overhead significantly.
- **Application Programming Interface (API) Enhancement**: Enhanced API program to include additional employee onboarding features for data transfer and thereby providing additional opportunities to work with more 3rd party providers.
- **Tax Notice Services Management**: Added new Tax Notice Services Management functionality including features and workflows starting with the creation of a Tax Notice record through the research, status changes, document management, various business intelligence tools and resolution of the notice.

- **Tax Forms and eFile Compliance**: Added/Modified tax forms and eFile reporting features for over 55 jurisdictions.
- **Security Enhancement for Validating "Over Limit" Payrolls**: Added new security feature that provides service bureaus better control of clients' payroll budget and risk management.

About Polaris Payroll™:

Empay Systems, LLC (Polaris Payroll) is a software development company that has designed and developed Software as a Service (SaaS) enterprise level solutions that are deployed in a Cloud Environment.
